DUMBA THINKS LEMBERG STILL HELD BY RUSSIA

Envoy's Dispatches Do Not Mention that City, but Do Say Austrians Win at Przemyel.

Manchester, Mass., Oct. 15.—Ambassador Dumba of Austria-Hungary, tonight issued the following statement: "Today's morning papers publish a telegram of the Exchange Telegraph Company from London, according to which the Austro-Hungarian legation at The Hague had issued a statement that the Russian troops had evacuated Lemberg after severe fighting. This event seems very improbable as the last wireless of Count Berchtold, sent me today, does not mention Lemberg."

Ambassador Dumba received the following official wireless communication from his foreign minister: "After the last unsuccessful attempt to force Przemyel on the southern side yesterday, the backward movement of the Russians from the fortress became general. Our own men have already reached the fortress from the west. The enemy, perplexed by the quickness of our operations in Russian Poland and Galicia, tried in vain to protect attacks on fortress by detaching troops to west, which could not resist our approaching armies. The fifth and sixth Russian infantry divisions were attacked by us at Lancut and fled toward the San River. A division of Cosacks and a brigade of infantry in strong positions east of Dnyne on the San were repulsed. Our troops are everywhere at the heels of the Russians."
